How to read the PT-73, a report of “District Requests, Valuations, % Tax Rates”.

The PT-73 shows each district (township or town). In each district I have highlighted the district name. In the first column the different classifications of property are listed beginning with Ag, Owner-Occupied, Mobile Home, Mobile Home Owner-Occupied, Other and Utilities (assessed centrally). The next column is the valuation of each class of property in the district with a total valuation at the bottom. The next column is the mill levy or tax rate. This is the dollar amount per \$1,000. Loosely translated, every \$1,000 of value is taxed \$5.949 cents. The next column is what the district requested during the budget preparation period.

The levy is the result of taking the (legal) request and dividing it by the taxable value. Let's look at the City of Miller's data:

Towns/Townships		Valuation	Tx Rte	Requests	Amt. Raised
<b>MILLER CITY</b>	Ag:	964,308	5.949	436,152	5,736.67
	OO:	47,307,023	5.949		281,429.56
	M:	51,509	5.949		306.43
	M-OO:	443,167	5.949		2,636.41
	Oth:	24,451,861	5.949		145,464.16
	Util:	98,596	5.949		586.55
	TOTAL:	73,316,464		436,152	<b>436,159.78</b>

Request:  $\$436,152 \div \text{Value: } \$73,316,464 = \text{Levy: } 0.005948 * 1,000 = \$5.9488$  which rounds up to \$5,949 as you see above. All requests presented to the auditor's office are compiled and submitted to the South Dakota Department of Revenue, Property Tax Division where they are examined to ensure that the auditor calculated them right and that they are in compliance with state law.

Districts are able to increase their levy by the Consumer Price Index or CPI. In 2021 the CPI was 1.2%. Districts would also increase their levy by the rate of their growth as reported by the Director of Equalization to the SD-DOR property tax division and approved, again, to ensure compliance with law. Most districts will see some growth based on new construction so the percentage of growth varies. If there is no growth, or valuations go down, the growth percentage remains zero.

Districts can get a hint of what their growth for the year will be during the equalization process. The Director of Equalization shows the district boards their growth figures. The districts need to keep in mind that centrally assessed utilities are not present in this report so it remains a hint, not fact.

In preparing the levy request for the next year, a district needs to recognize that the CPI and growth apply only to the General Levy, not opt-outs or road & bridge levies.

The next example is Cedar Township which has a general (base) levy, an opt-out and a road and bridge levy. Please note that the format of the report is different because there is more than one levy being applied. That is why the levies have a “Detailed Breakdown”.

**CEDAR**

Ag:	26,321,706	.653	17,580	17,188.12
OO:	533,774	.653		348.56
M:	0	0.653		.00
M-OO:	0	0.653		.00
Oth:	97,981	.653		63.99
Util:	0	.653		.00
<hr/>				
TOTAL:	26,953,461		17,580	17,600.67
<hr/>				
Detailed Breakdown				
GENERAL		.230	6,192	6,199.01
OPT-OUT		.083	2,224	2,237.02
RD & BRIDG		.340	9,164	9,164.64

Here the township requested a general (base) levy of \$6,192, an opt-out equal to \$2,224 and a road and bridge levy which resulted in \$9,164. The total request is \$17,580 but please notice the result column (last one) shows different numbers. This is because of the levies being percentage based. If all taxes are paid in the township, the revenue should be \$17,600.67, \$20.67 more. This is permissible.

All towns and townships will have a general (base) levy, some will also have opt-outs, some will have a road & bridge levy and others, like Cedar will have all three.

It is important for township boards to know and understand the differences between the general (base), opt-out and road & bridge levies as they are all written into law separately and have different limitations placed on them. A township can not and should not exceed those limitations in their requests. For example, the road and bridge levy is maxed out at \$0.50 per thousand in valuation. In this case, Cedar Township has not requested the max.

There are also different ways in which each levy is imposed. It is important that a town or township record the action of the board, recognize the rights of voters and board members and memorialize their decision in their minutes. If a levy action is not in the minutes properly, it may nullify the action.

Summary:

- The “general” (base) tax levy is the only levy upon which the CPI and growth is applied.
  - It is defined in a request of dollars per thousand.
- The opt-out must be valid (in effect) to be used and has a maximum dollar amount.
  - Requires special action and publications.
- The road & bridge levy for townships is by resolution and maxed at \$0.50 per thousand dollars of value.
  - The request is submitted by resolution as cents per thousand (not exceeding fifty cents)

If, during the process of calculating your levy request, start with your general (base) levy. Since the general levy can only go up by CPI and Growth, start by taking the current base (shown in this report) and apply the CPI (which will advertised in January or February) and ask for growth. This is the same as when you used to write “MAX” on your forms.

If you have an “OPT-OUT”, make sure it is still in effect. You can ask for any amount of it up to the maximum authorized in your original opt-out notification. Use whole dollars (no cents).

If you want a “road and bridge” levy, you must have a resolution every year and it must state the levy amount.

So, for each levy, your minutes needs a section to define it. The clerk then writes this upon the request.
